

April 10-16, 2005

Participate in the single, largest environmental education event in U.S. history

National Environmental Education Week will involve thousands of educators and millions of students. It will enhance the educational impact of Earth Day and create a full week of environmental education preparation, learning, and activities in K-12 classrooms, nature centers, zoos, museums, and aquariums.

National Environmental Education Week is coordinated by the National Environmental Education & Training Foundation in cooperation with hundreds of outstanding environmental education organizations, education associations, state and federal agencies.
